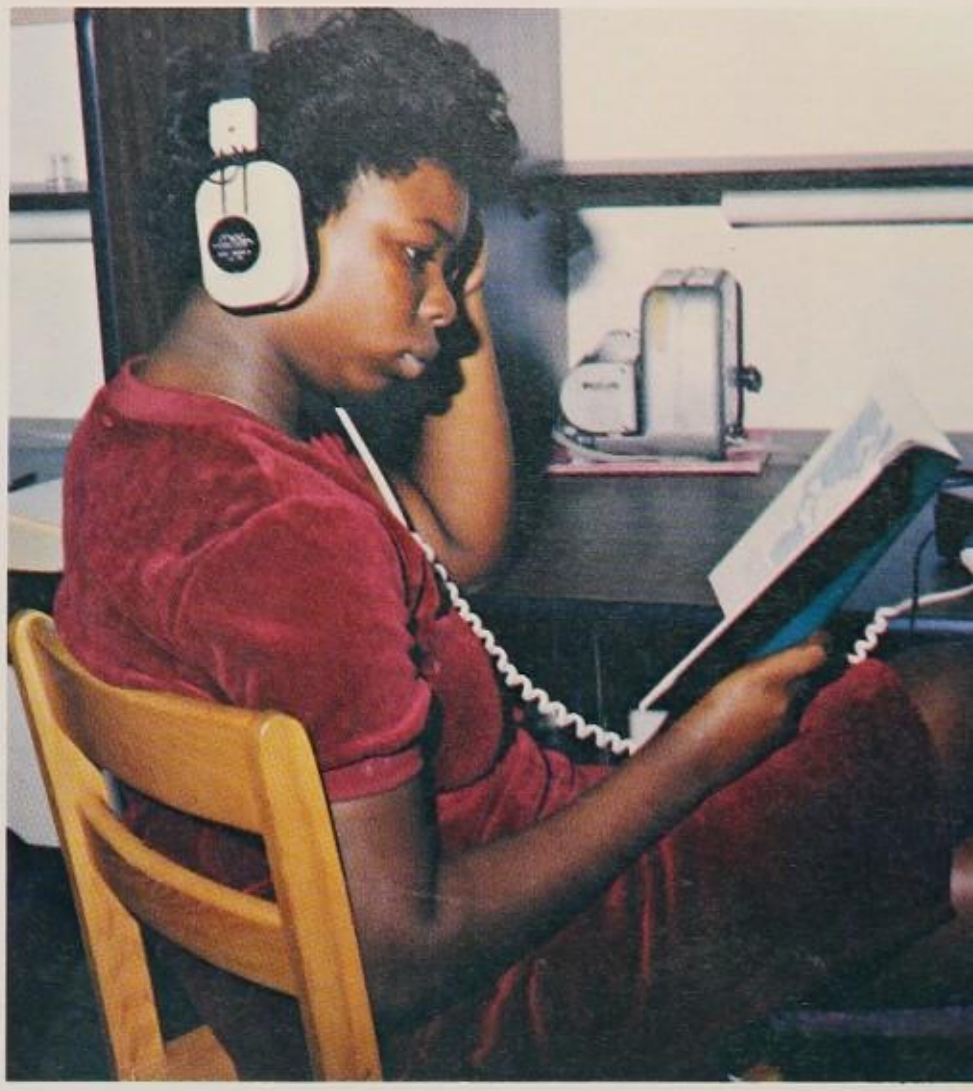
The traditions remain

But the seniors of 79
must give way . . .



to the proud seniors of '80!

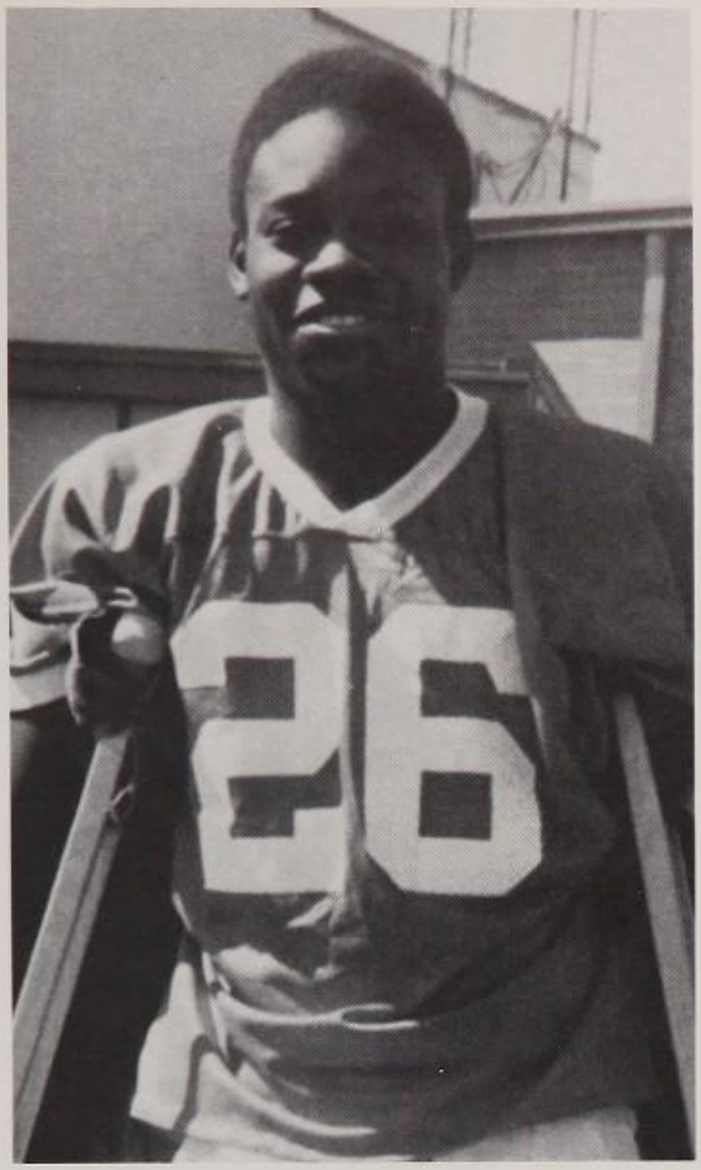
If there are conditions

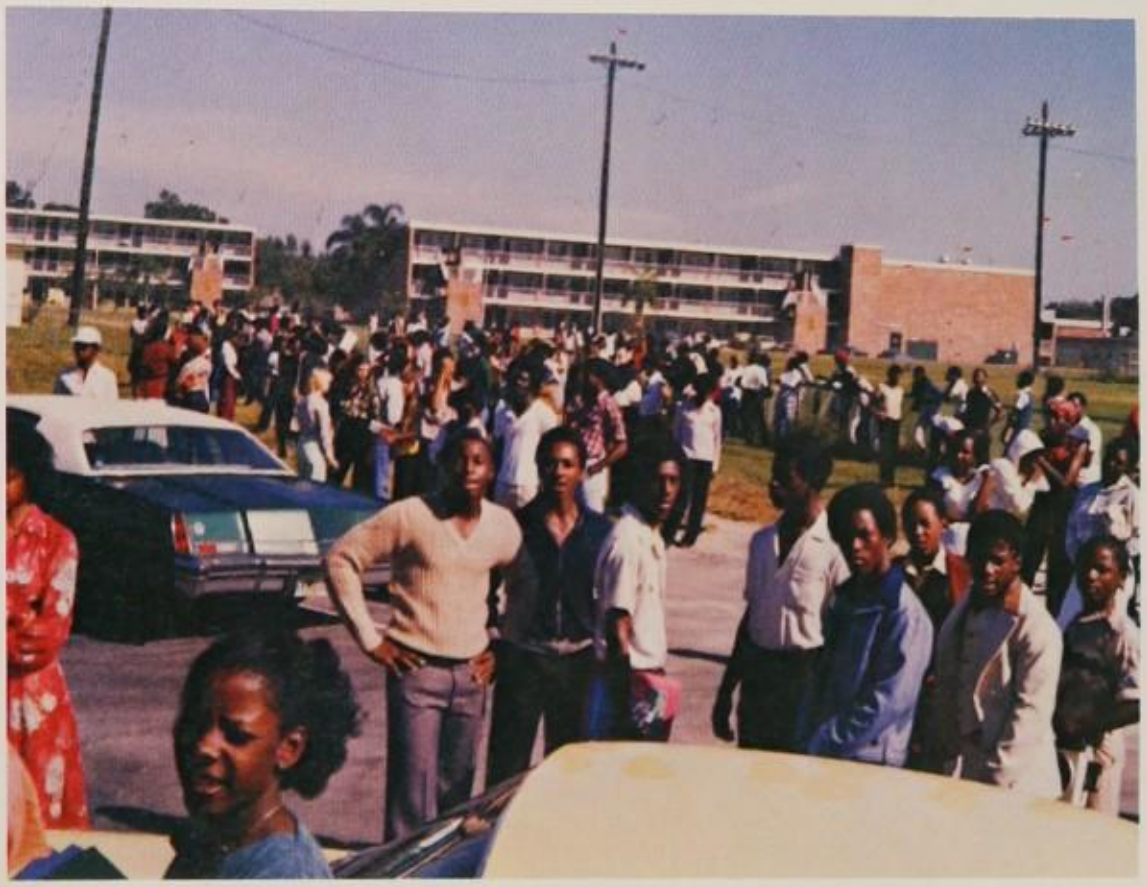
in this time

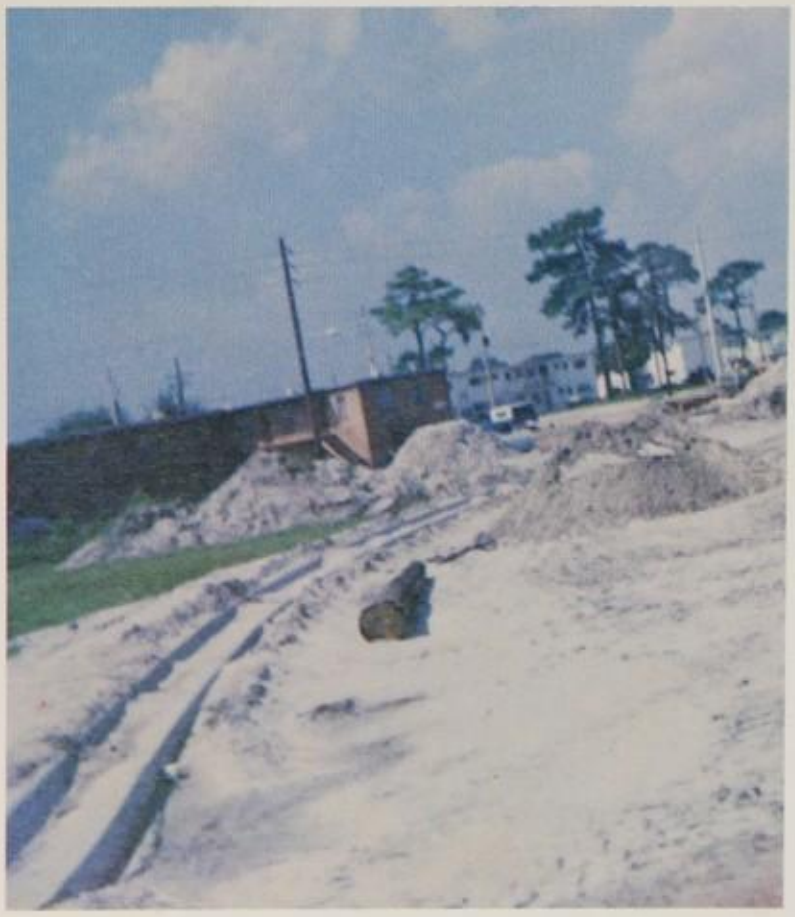
that are not so beautiful!

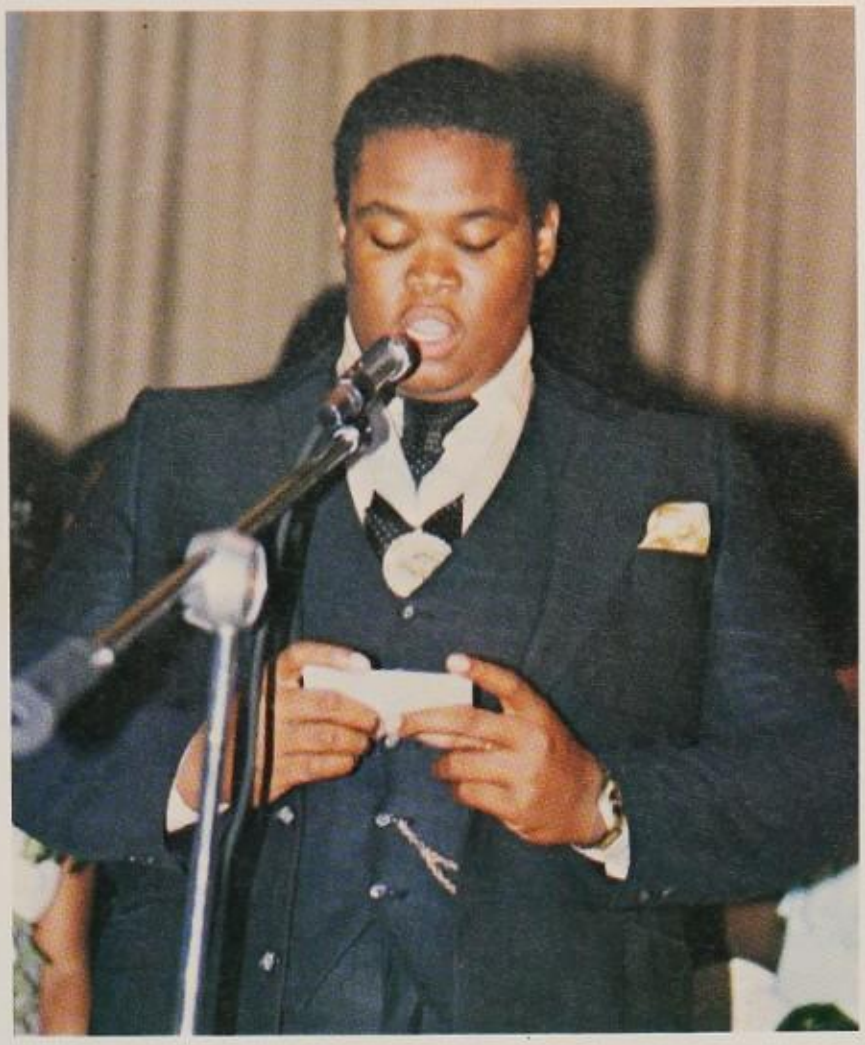


We must try to improve

or correct them





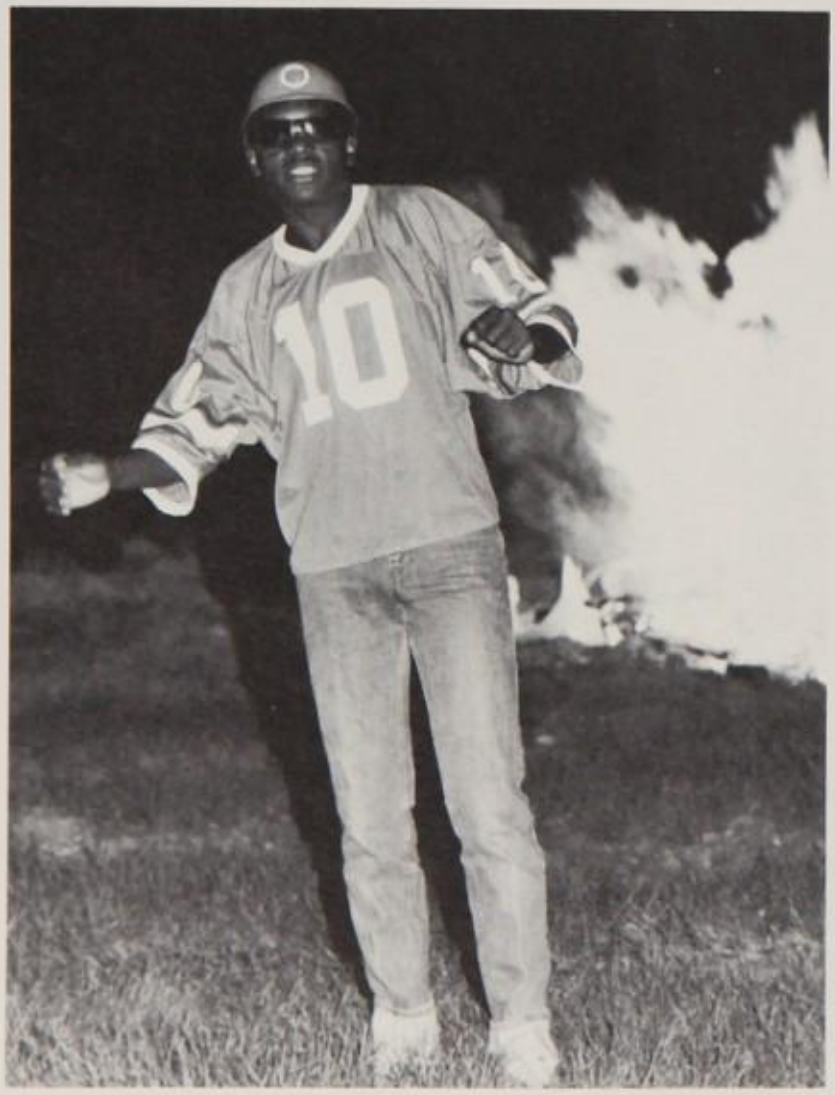


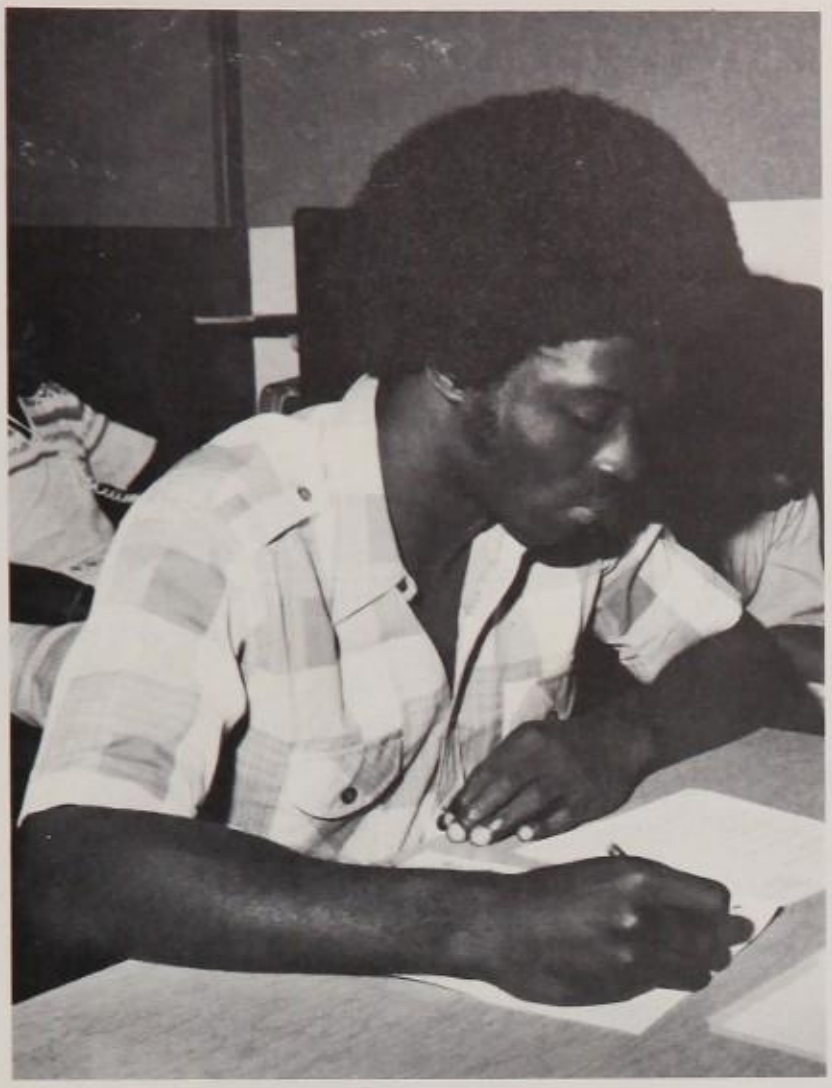
The past, the present

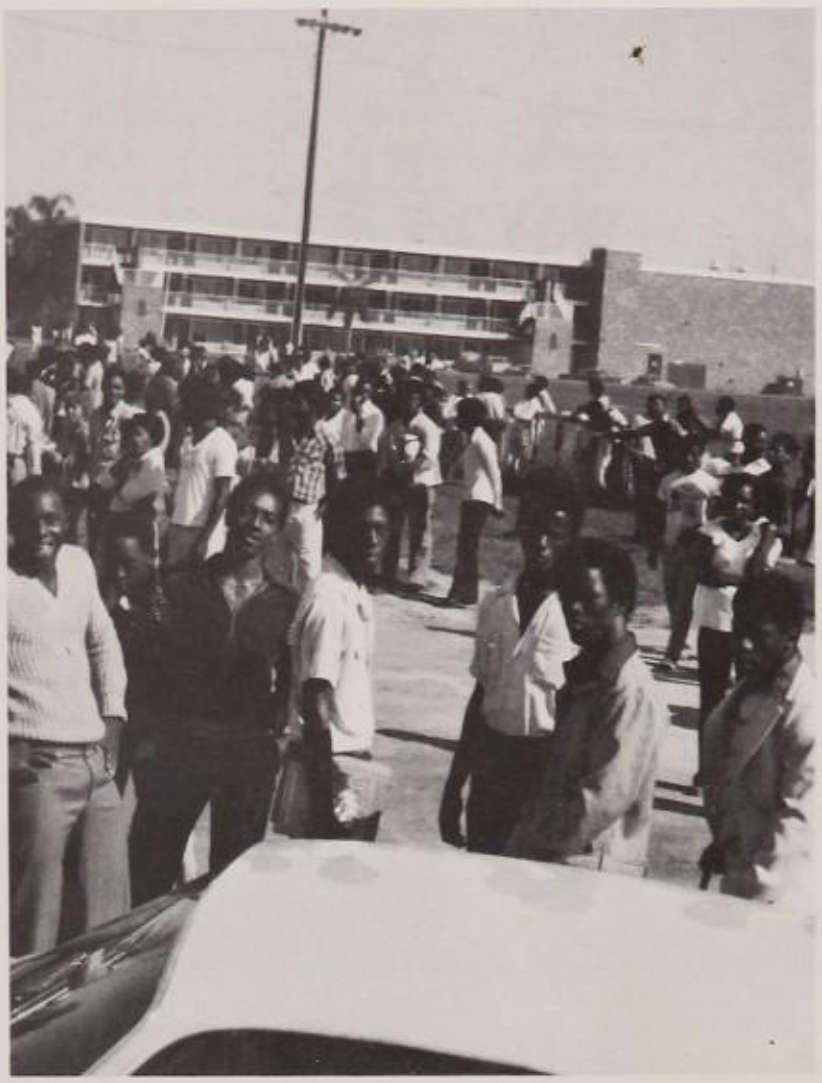
and the future

are forever tied together.

Through changes that we
make
during this time, we are
fashioning our tomorrow.
For all we want is the Brains
to decide what is best for us,
The courage to follow
through with
that decision and . . .







We want to have the
heart
so that we can
understand and love all
of it—
Whatever
Happens.

A change of pace is all we need.
A change is all we want.
Thank the Lord, a few have finally come.

Twelve years have passed us
by and now our time has come.
We have learned and
experienced many new things
along the way.
All of us may not choose the
same path.
Some of us may never see one
another again.
But one thing for sure; this is
not the end.

Our lives are only changing
from one stage to another–
And now . . .
Our futures are finally on their
way.

We'll Never Love This Way Again

The theme for this year's coronation truly expresses the love and togetherness of our royal court and family. We realize that we have shared one of the most cherishing moments of our lives and when we part to travel our separate paths, we may never again unite as a family. It is my judgment that the theme is somewhat of an under-statement, for we shall never experience such togetherness. Much more, we shall never love this way again.

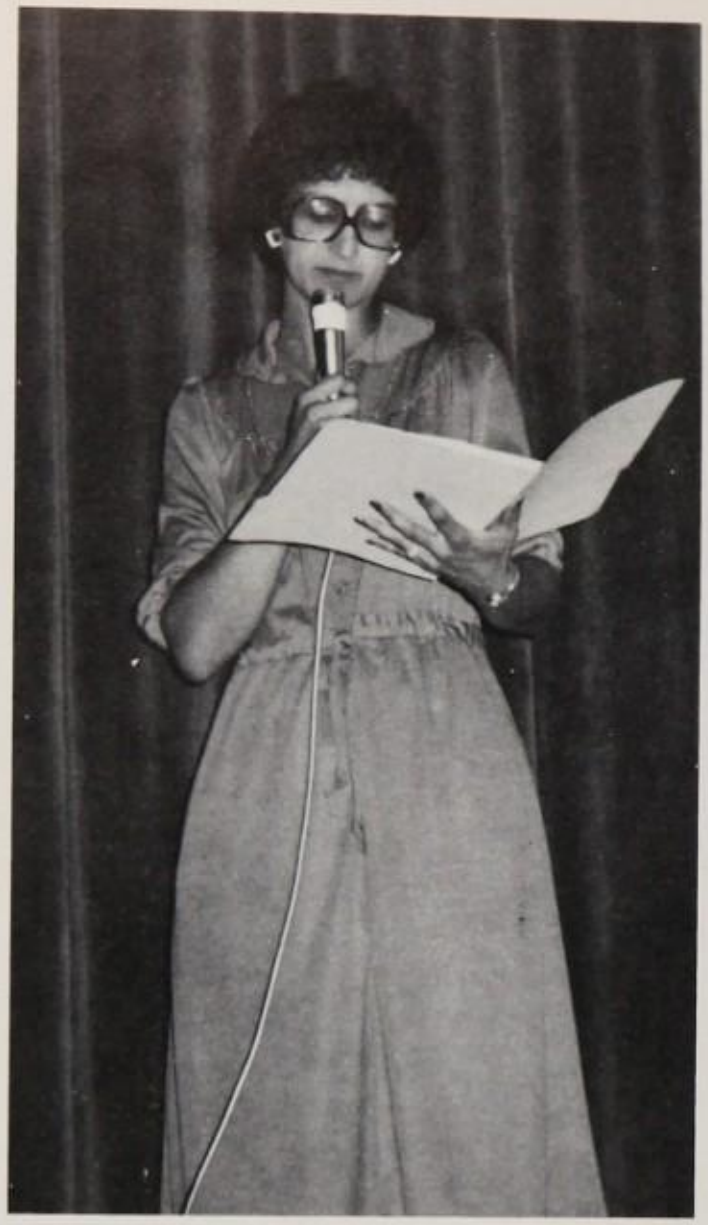
Disco Willie!!



Thespian is an International Organization of honor students in drama who have been recognized after having met the specific requirements of the association. Students earn points by working in dramatic productions by acting, designing and building sets, and applying makeup. They also earn points by making costumes, working the lights and sound systems, and by competing in dramatic competition. This years performances were started off by an original assembly written by the drama class highlighted by the 50's hit "Charlie Brown" and original song and dance routine which featured Reggie Hinson, Wesley Snipes, Ed Powell and Vic McGauley.

To The Senior Class:

It was only yesterday that we came here. We walked through the halls alone, but quickly made friends and adjusted to new surroundings. Together we laughed, loved, cried, and prayed. We screamed in support of our teams and stood behind each other in times of need. With our closest friends we shared our deepest thoughts, and with the entire student body we reflected our ideas, beliefs, and attitudes.

Within these walls we learned not only lessons of wars and heroes, equations, and anatomy, but also lessons of human worth and dignity of power and emotions, and of personal growth. But it was not only being a part of the school that brought us to this point in our lives, it was belonging to a group of people. As we waited for the moment when we could look back, we realize the changes life has brought us through and then we look towards the future. It is time to say goodbye, for our paths lay open to a new beginning . . .

Through the Tiger's Eye we come to know that all things change. The Jones High School Tiger's Eye teaches us to look beyond our own knowing, our own means, and find an understanding. We looked; we found. From the oldest book known to us, THE HOLY BIBLE, we found:

"... whether there be prophecies, they shall fail; whether there be tongues, they shall cease; whether there be knowledge, it shall vanish away." After all these changes, we found from the same source, the following: "There are three things that remain—FAITH, HOPE, and LOVE—and the greatest is Love."

Hi sweetheart! This year has been very special to me. I hope it was just as special for you. At first I had second thoughts about coming to Jones High, but now I am very glad that I did. One reason is because I got to meet you Teresa, and the rest of your family. You are very special to me. When we were together I cared for you very much, but now that we a'nt and me and Teresa are but friends I care for you even more. And I'm not just saying that. I feel very close to you. I always wondered how it would be to have a brother and if he acts like you do to Teresa I really wish I had one. But see there's more to the care I have for you than just a brother. You mean alot to me and I hope we never ruin the friendship between us. I like to hang around with you and have fun. I can act myself in front of you and you still like me. I have alot of fun when I am with you. You, Teresa and I are the best three stooges around. You had better not go back to California either. I don't know what I would do if you all left me. I wouldn't have nobody to beat me up. Or to hit on. Well I guess that's all.

I Love You

Hi there, 6/5/80

Well it's the end of the year and it's about time. I'm going to miss seeing you around. We've been through alot and I sure am sorry about the way things turned out. I really did care about you alot, and I still do, you are a pretty special guy to me. I hope we will always stay friends no matter what happens. I wish you all the success in the world with all the girls you meet. I hope you find someone who will treat you better than I ever did. I'm not sure if you cared about me, but I know we got along no matter what happened. I really do hope you find someone who will care for you and love you and treat you right. I guess deep down I loved you in my own ways. You the sweetest guy I know and you have a great personality and with both of those things you will go really far. Hope you make it through the years at Jones High and why not go out for spr. Jones High I'm sure you will make so I hope you try. Keep in touch. Good luck.

Love you, (Jessie)
